

LOCAL WELLNESS POLICY

Purpose

New Academy Charter School recognizes that student wellness and proper nutrition are related to students' physical well-being, growth, development and readiness to learn. The Board is committed to providing an environment that promotes student wellness, proper nutrition, nutrition education and promotion, and regular physical activity as part of the total learning experience. In a healthy school environment, students will learn about and participate in positive dietary and lifestyle practices that can improve student achievement.

Authority

The Board adopts this policy based on the recommendations of the Wellness Committee and in accordance with federal and state laws and regulations.

To ensure the health and well-being of all students, the Board establishes that the school shall provide to students:

1. A comprehensive nutrition program consistent with federal and state requirements.
2. Access at a reasonable cost to foods and beverages that meet established nutrition guidelines
3. Physical education courses and opportunities for developmentally appropriate physical activity during the school day.
4. Curriculum and programs for grades 8-12 that are designed to educate students about proper nutrition and lifelong physical activity, in accordance with the State Board of Education curriculum regulations and academic standards.

Delegation of Responsibility

The Executive Director or designee shall be responsible for the implementation and oversight of this policy to ensure the school programs and curriculums are compliant with this policy, related policies and established guidelines or administrative regulations.

The principal or designee shall annually report to the Executive Director or designee regarding compliance at the school.

Staff members responsible for programs related to school wellness shall report to the Exec Director or designee regarding the status of such programs.

The Executive Director or designee shall annually report to the Board on the district's compliance with law and policies related to school wellness. The report may include:

- Assessment of school environment regarding school wellness issues.
- Evaluation of food services program.
- Review of all foods and beverages sold in schools for compliance with established nutrition guidelines.
- Listing of activities and programs conducted to promote nutrition and physical activity.
- Recommendations for policy and/or program revisions.
- Suggestions for improvement in specific areas.
- Feedback received from district staff, students, parents/guardians, community members and the Wellness Committee.

The Executive Director or designee and the established Wellness Committee shall conduct an assessment at least once every three (3) years on the contents and implementation of this policy as part of a continuous improvement process to strengthen the policy and ensure implementation. This triennial assessment shall be made available to the public in an accessible and easily understood manner and include:

1. The extent to which the school is in compliance with law and policies related to school wellness.
2. The extent to which this policy compares to model wellness policies
3. A description of the progress made by the district in attaining the goals of this policy.

At least once every three (3) years, the school shall update or modify this policy as needed, based on the results of the most recent triennial assessment and/or as school and community needs and priorities change; and new federal and state guidance or standards are issued.

The school shall annually inform and update the public, including parents/guardians, students and others in the community, about the contents, updates and implementation of this policy via the district website, student handbooks, newsletters, posted notices and/or other efficient communication methods. This annual notification shall include information on how to access the School Wellness policy;

information about the most recent triennial assessment; information on how to participate in the development, implementation and periodic review and update of the School Wellness policy; and a means of contacting Wellness Committee leadership.

Record Keeping

New Academy Charter School shall retain records documenting compliance with the requirements of the School Wellness policy, which shall include:

1. The written School Wellness policy
2. Documentation demonstrating that the school has informed the public, on an annual basis, about the contents of the School Wellness policy and any updates to the policy.
3. Documentation of efforts to review and update the School Wellness policy, including who is involved in the review and methods used by the school to inform the public of their ability to participate in the review.
4. Documentation demonstrating the most recent assessment on the implementation of the School Wellness policy and notification of the assessment results to the public.

Wellness Committee

The school shall establish a Wellness Committee comprised of, but not necessarily limited to, at least one (1) of each of the following: Principal, parent/guardian, student, representative of the school food authority, school health professional, physical education teacher, school board member, and member of the public. It shall be the goal that committee membership will reflect diversity of the community.

The Wellness Committee shall serve as an advisory committee regarding student health issues and shall be responsible for the developing, implementing and periodically reviewing and updating a school Wellness policy that complies with law to recommend to the Board of adoption.

The Wellness Committee shall review and consider evidence-based strategies and techniques in establishing goals for nutrition education and promotion, physical activity and other school based activities that promote student wellness as part of the policy development and revision process.

- Advisory Health Council
- An Advisory Health Council may be established by the Executive Director to study student health issues and to assist in organizing follow-up programs.

- The Advisory Health Council may examine related research, assess student needs and the current school environment, review existing Board policies and administrative regulations, and raise awareness about student health issues.
- The Advisory Health Council may make policy recommendations to the Board related to other health issues necessary to promote student wellness
- The Advisory Health Council may survey parents/guardians and/or students; conduct community forums or focus groups; collaborate with appropriate community agencies and organizations; and engage in similar activities, within the budget established for these purposes.
- The Advisory Health Council shall provide periodic reports to the Superintendent or designee regarding the status of its work, as required.

Individuals who conduct student medical and dental examinations shall submit to the Advisory Health Council annual reports and later reports on the remedial work accomplished during the year, as required by law.

Nutrition Education

Nutrition education will be provided with the sequential, comprehensive health education program in accordance with curriculum regulations and the academic standards for Health, Safety and Physical Education.

- Nutrition education in the school shall teach, model, encourage and support healthy eating by students. Promoting student health and nutrition enhances readiness for learning and increases student achievement.
- Nutrition education shall provide all students with the knowledge and skills needed to lead healthy lives.
- Nutrition education lessons and activities shall be age-appropriate.
- Nutrition curriculum shall teach behavior-focused skills, which may include menu planning, reading nutrition labels and media awareness
- School food service and nutrition education classes shall cooperate to create a learning laboratory.
- Nutrition education shall be integrated into other subjects such as math, science, language arts and social sciences to complement but not replace academic standards based on nutrition education.
- Nutrition education shall extend beyond the school environment by engaging and involving families and the community.
- The staff responsible for providing nutrition education shall be properly trained and prepared and shall participate in appropriate professional development. The school shall develop standards for such training and professional development.

Nutrition Promotion

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourages participation in school meal programs.

The school shall promote nutrition through the implementation of Farm to School activities when possible. Activities may include, but limited to, the initiation/maintenance of school gardens, taste-testing of local products in the cafeteria and classroom, classroom education about local agriculture and nutrition, field trips to local farms and incorporation of local foods into school meal programs.

School staff shall cooperate with agencies and community organizations to provide opportunities for appropriate student projects related to nutrition.

School food service personnel shall review and implement research-based, behavioral economics techniques in the cafeteria to encourage consumption of more whole grains, fruits, vegetables and legumes, and to decrease plate waste.

Consistent nutrition messages shall be disseminated and displayed throughout the school, classrooms, cafeteria, homes, community and media.

Consistent nutrition messages shall be demonstrated by avoiding use of unhealthy food items in classroom lesson plans and school staff avoiding eating less healthy food items in front of students

Schools shall offer resources about health and nutrition to encourage parents/guardians to provide healthy meals to their children.

Physical Activity

The school shall strive to provide opportunities for developmentally appropriate physical activity during the school day for all students.

The School shall contribute to the effort to provide students opportunities to accumulate at least sixty (60) minutes of age-appropriate physical activity daily, as recommended by the Centers for Disease Control and Prevention. Opportunities offered at school will augment physical activity outside the school environment, such as outdoor play at home, sports, etc.

The School shall contribute to the effort to provide students opportunities to accumulate at least sixty (60) minutes of age-appropriate physical activity daily, as recommended by the Centers for Disease Control and Prevention. Opportunities offered at school will augment physical activity outside the school environment, such as outdoor play at home, sports, etc.

The school shall contribute to the effort to provide students opportunities to accumulate at least sixty (60) minutes of age-appropriate physical activity daily, as recommended by the Centers for Disease Control and Prevention. Opportunities offered at school will augment physical activity outside the school environment, such as outdoor play at home, sports, etc..

Age-appropriate physical activity opportunities, such as outdoor and indoor recess, before and after school programs, during lunch, clubs, intramurals and interscholastic athletics, shall be provided to meet the needs and interests of all students, in addition to planned physical education.

A physical and social environment that encourages safe and enjoyable activity for all students shall be maintained. Extended periods of student inactivity, two (2) hours or more, shall be discouraged.

Physical activity breaks shall be provided for students during classroom hours.

Students and their families shall be encouraged to utilize district-owned physical activity facilities, such as playgrounds and fields, outside school hours in accordance with established district rules.

Physical activity shall not be used or withheld as a form of punishment.

Physical Education

A sequential physical education program consistent with curriculum regulations and Health Safety and Physical Education academic standards shall be developed and implemented. All school students must participate in physical education.

Quality physical education instruction that promotes lifelong physical activity and provides instruction in the skills and knowledge necessary for lifelong participation shall be provided.

Physical education classes shall be the means through which all students learn, practice and are assessed on developmentally appropriate skills and knowledge necessary for lifelong, health-enhancing physical activity.

A comprehensive physical education course of study that focuses on providing students the skills, knowledge, and confidence to participate in lifelong, health-enhancing physical activity shall be implemented.

A varied and comprehensive curriculum that promotes both team and individual activities and leads to students becoming and remaining physically active for a lifetime shall be provided in the physical education program.

Adequate amounts of planned instruction shall be provided in order for students to achieve the proficient level for the Health, Safety and Physical Education academic standards.

A local assessment system shall be implemented to track student progress on the Health, Safety and Physical Education academic standards.

Students shall be moderately to vigorously active as much time as possible during a physical education class. Documented medical conditions and disabilities shall be accommodated during class.

Safe and adequate equipment, facilities and resources shall be provided for physical education courses.

Physical education shall be taught by certified health and physical education teachers.

Appropriate professional development shall be provided for physical education staff.

Physical education classes shall have a student-teacher ratio comparable to those of other courses for safe and effective instruction.

Physical activity shall not be used or withheld solely as a form of punishment.

Other School Based Activities

Safe drinking water shall be available and accessible to students, without restriction and at no cost to the student, at all meal periods and throughout the school day.

Nutrition professionals who meet hiring criteria established by the school and in compliance with federal regulations shall administer the school meals program. Professional development and continuing education shall be provided for the school nutrition staff, as required by federal regulations.

- The school shall provide adequate space for eating and serving schools meals
- Students shall be provided a clean and safe meal environment
- Students shall be provided adequate time to eat: ten (10) minutes sit down for breakfast; twenty (20) minutes sit down time for lunch.
- Meals periods shall be scheduled at appropriate hours, as required by federal regulations and as defined by the school.
- Students shall have access to hand washing or sanitizing before meals and snacks
- Access to food service operation shall be limited to authorized staff and students
- To the extent possible, the school shall utilize available funding and outside programs to enhance wellness
- The school shall provide appropriate training to all staff on the components of the School Wellness policy
- Goals of the School Wellness policy shall be considered in planning all school based activities
- Administrators, teachers, food service personnel, students, parents/guardians and community members shall be encouraged to serve as positive role models through school programs, communications, and outreach efforts.

- The school shall maintain a healthy school environment, to optimize conditions for learning and minimize potential health risks to students, in accordance with the school's environmental health program and applicable laws and regulations.

Nutrition Guidelines for all Foods/Beverages at School

All foods and beverages available in school during the school day shall be offered to students with consideration for promoting student health and reducing obesity

Food and beverages provided through the National School Lunch or School Breakfast Programs shall comply with established federal nutrition standards.

Shared classroom snacks are not permitted in school

Foods and beverages offered or sold at school-sponsored events outside the school day, such as athletic events and dances, shall offer healthy alternatives in addition to more traditional fare.

Competitive foods available for sale shall meet or exceed the established federal nutrition standards (USDA Smart Snacks in School). These standards shall apply in all locations and through all services where foods and beverages are sold to students, which may include, but are not limited to: a la carte options in cafeterias, vending machines, school stores, snack carts and fundraisers.

Competitive foods are defined as foods and beverages offered or sold to students on school campus during the school day, which are not part of the reimbursable school breakfast or lunch.

For purposes of this policy, **school campus** means any area of property under the jurisdiction of the school that students may access during the school day.

For purposes of this policy, **school day** means the period from midnight before school begins until thirty (30) minutes after the end of the official school day.

The School may impose additional restrictions on competitive foods, provided that the restrictions are not inconsistent with federal requirements.

The district may allow a limited number of exempt fundraisers as permitted by the Pennsylvania Department of Education each school year: up to five (5) exempt fundraisers in elementary and middle school buildings, and up to ten (10) exempt fundraisers in high school buildings. **Exempt fundraisers** are fundraisers in which competitive foods are available for sale to students that do not meet the Smart Snacks in School nutrition standards.

The district shall establish administrative regulations to implement fundraising activities in district schools, including procedures for requesting a fundraiser exemption.

Non-sold competitive foods available to students, which may include but are not limited to foods and beverages offered as rewards and incentives, at classroom parties and celebrations, or as shared classroom snacks, shall meet or exceed the standards established by the district.

If the offered competitive foods do not meet or exceed the Smart Snacks in School nutrition standards, the following standards shall apply:

1. Rewards and Incentives:
 - a. Foods and beverages shall not be used as a reward for classroom or school activities unless the reward is an activity that promotes a positive nutrition message (e.g., guest chef, field trip to a farm or farmers market, etc.).
2. Classroom Parties and Celebrations:
 - a. Classroom parties/celebrations with food/beverages shall be limited to no more than one (1) per month in each classroom.
 - b. Classroom parties shall offer a minimal amount of foods (maximum 2-3 items) containing added sugar as the primary ingredient (e.g., cupcakes, cookies) and will provide the following:
 - Fresh fruits/vegetables; and
 - Water, 100 percent juice, 100 percent juice diluted with water, low-fat milk or nonfat milk.The district shall provide a list of suggested nonfood ideas and healthy food and beverage alternatives to parents/guardians and staff, which may be posted via the district website, student handbook, newsletters, posted notices and/or other efficient communication methods.

Any foods and beverages marketed or promoted to students on the school campus during the school day shall meet or exceed the established federal nutrition standards (USDA Smart Snacks in School) and comply with established Board policy and administrative regulations.

Exclusive competitive food and/or beverage contracts shall be approved by the Board, in accordance with provisions of law. Existing contracts shall be reviewed and modified to the extent feasible to ensure compliance with established federal nutrition standards, including applicable marketing restrictions.

Management of Food Allergies in the School

The school shall establish Board policy to address food allergy management in order to:

1. Reduce and/or eliminate the likelihood of severe or potentially life-threatening allergic reactions.
2. Ensure a rapid and effective response in case of a severe or potentially life-threatening allergic reaction.
3. Protect the rights of students by providing them, through necessary accommodations when required, the opportunity to participate fully in all school programs and activities

Safe Routes to School

- The School provides door-to door transportation of all of their students.
- The district shall cooperate with local municipalities, public safety agency, police departments and community organizations to develop and maintain safe routes to school.
- District administrators shall seek and utilize available federal and state funding for safe routes to school, when appropriate.
